

PREMIUM PRE-TAPED MASKING FILM

FEATURING PG21 MASKING TAPE

COMING SOON!

Stain resistant, temperature resistant, PG21 paper masking tape combined with strong, corona-treated HDPE film for industrial, marine and automotive painting. The solvent and moisture resistant film permits worry-free wet sanding preparation and allows for easy cornering and masking of curved surfaces. Repositionable, heat resistant rubber based pressure-sensitive adhesive provides a secure hold to and clean removal from most surfaces in both warm and cold environments.

Film is pre-taped and pre-folded for easy use. One person can apply then extend the film to desired length to protect surfaces, reducing masking time and waste.

FEATURES & BENEFITS

- Tape is compatible with both solvent and waterborne paints
- Provides resistance to paint flaking and a clean, well-defined paint line
- Tape is temperature resistant to 325°F/163°C
- PG21 Government Compliance: ASTM D6123/D6123M (1), CID AA-883B (1), BAC5317

Tape Backing	Tape Adhesive	Tape Total Thickness (mils)	Adhesion to Steel (oz/in of width)	Tape Temperature Resistance	UV Resistance	Weather Resistance	Tape Color
Fine Crepe Paper	Rubber/Resin	7.3 (0.185mm)	28 (7.7 N/25mm)	325°F/163°C	Limited	Limited	Natural

Film Backing	Film Total Thickness (μ)	Film Temperature Resistance	Film Color
Virgin HDPE	9.0 (0.35 mil)	230°F/110°C	Clear

Part Number	Description	Rolls per Case
AMT PTHMF-21	Masking film, premium PG21 pre-taped 21" x115'	40
AMT PTHMF-43	Masking film, premium PG21 pre-taped 43" x115'	20
AMT PTHMF-72	Masking film, premium PG21 pre-taped 72" x115'	20
AMT PTHMF-120	Masking film, premium PG21 pre-taped 120"x115'	12
